Contents

What They're Saying. ..... **vii**
Preface. ..... **ix**

1/Getting Up and Running **1**
A Tour of the Boards **2**
The Proper Peripherals **8**
The Case **13**
Choose Your Distribution **15**
Flash the SD Card **15**
For Advanced Users: Create Your Own Disk Image **16**
Booting Up **17**
Configuring Your Pi **17**
Getting Online **22**
Shutting Down **24**
Running Headless **24**
Troubleshooting **25**
Going Further **26**

2/Getting Around Linux on the Raspberry Pi **27**
Using the Command Line **31**
Files and the File system **32**
More Linux Commands **37**
Processes **39**
Sudo and Permissions **41**
The Network **43**
/etc **44**
Setting the Date and Time **44**
Installing New Software **45**
Sound in Linux **46**
Upgrading Your Firmware **46**
Going Further **47**

3/Other Operating Systems and Linux Distributions **49**
Distributions for Home Theater **50**
Distributions for Music **52**
Retro Computing and Retro Gaming **53**
Internet of Things **53**
Other Useful Distributions **54**
Going Further **55**

4/Python on the Pi **57**
Hello, Python **58**
A Bit More Python **60**
Objects and Modules **63**
Even More Modules **67**
Launching Other Programs from Python **70**
Troubleshooting Errors **72**
Going Further **73**

5/Arduino and the Pi **75**
Installing Arduino on the Raspberry Pi OS **78**
Finding the Serial Port **79**
Talking in Serial **80**
Using Firmata **84**
Going Further **86**

6/Basic Input and Output **87**
Using Inputs and Outputs **90**
Digital Output: Lighting Up an LED **92**
Digital Input: Reading a Button **97**
Project: Cron Lamp Timer **100**
Scripting Commands **100**
Connecting a Lamp **102**
Scheduling Commands with Cron **103**
Going Further **106**

7/Programming Inputs and Outputs with Python **107**
Installation **107**
Testing GPIO in Python **109**
Blinking an LED **110**
Reading a Button **112**
Project: Simple Soundboard **114**
Going Further **119**

8/Analog Input and Output **121**
Output: Converting Digital to Analog **122**
Test-Driving PWM **124**
Taking PWM Further **125**
Input: Converting Analog to Digital **126**
Variable Resistors **132**
Going Further **136**

9/Working with Cameras **137**
Connecting and Testing the Camera Module **141**
Project: Making a GIF **144**
Capturing Video **144**
Testing USB Webcams **145**
Installing and Testing Open CV **146**
Additional Step for the Raspberry Pi Camera Module **148**
Displaying an Image **148**
Modifying an Image **151**
Accessing the Camera **153**
Face Detection **156**
Project: Raspberry Pi Photobooth **158**
Going Further **163**

10/Python and the Internet **165**
Download Data from a Web Server **165**
Fetching the Weather Forecast **167**
Serving Pi (Be a Web Server) **176**
Flask Basics **176**
Connecting the Web to the Real World **180**
Project: Web Lamp **183**
Going Further **188**

A/Writing an SD Card Image **189**

B/The Raspberry Pi Pico **197**

C/Another Raspberry Pi?! **210**

Index **214**
